We have been working with Vision Financial Group for over 15 years, beginning with Spring Garden Wash & Lube. After a few years working mainly with Jacob Ansel, it was more than obvious that we needed to have the same level of top notch service for all of our businesses. We cannot adequately express the level of expertise that Jake and his office provide us. Beyond the ever changing tax laws, Vision Financial Group's tireless efforts can only be described as phenomenal. In addition, receiving sound advice on investments and retirement has provided our family peace of mind, which is priceless.

The office staff is extremely professional, knowledgeable and friendly. On any given date and time, we can reach out and get a response to any question. Given the climate of customer service, where most expect you to wait 24-48 hours for a response, Vision Financial Group always has a reply within less than an hour (in most cases, almost immediately), letting us know that they acknowledge our question or concern, and are working to resolve any issue or provide any information that we may need. In a world where things happen quickly, it's important to know that there will not be several messages left or days waiting for someone "to get back to us".

Entrusting Vision Financial Group to handle all of our accounting needs has been one of the best decisions we have made for our businesses. In conclusion, we are certain that there is truly no one better in the profession.
