

Dear Jake,

As the owner of Ventois Inc., (An IT solutions provider), I would like to thank you for the services provided in reviewing both personal and business accounts with utmost honesty and integrity. The services provided by you and your team during every tax season since 2017 have been remarkable and have changed our way of viewing our financial reports, taxes, and tax planning with your consistent availability & communication. The unique challenges faced during the 2016-2018 tax audit was no exception and we were able to overcome the challenge with your continued support, understanding and cooperation. Your profound knowledge of taxes and legal limitations have assisted us to move towards low interest rates coupled with easy credit, lower taxes, and significant economic growth.

Throughout this time, Vision Financial with their partners Jake Ansel and Mike Slotopolsky have played a major role and have become our go-to person for any tax concerns and discussions. The services provided have been very helpful in sorting out our tax audits with their revised suggestions and well executed strategies keeping the rules and norms intact. In addition, your in-depth tax knowledge and thoughtful recommendations have improved our company accounting quality, cash management & improvised financial decision-making abilities.

It brings us immense pleasure to recommend Vision Financial and their partners for tax audits, bookkeeping, accounting, and other financial needs.

Sincerely,

A handwritten signature in black ink, appearing to read 'K. S. Kota', with a stylized flourish at the end.
