Dear Sir or Madam:

Since my business was started in 2009, tax season has been particularly stressful to me. Not only did I require extensive tax work, but more importantly needed a knowledgeable source for information and advice that I could trust.

I am delighted to say that Michael Slotopolsky of Vision Financial CPAs has not only exceeded my expectations, but has provided me with valuable advice and strategy. This has clearly translated into improving my bottom line and has helped my business grow. In addition, Mr. Slotopolsky has a high degree of professionalism and a great resource for anything related to financial advice, tax law, and business plans. I value my relationship with Michael as an integral part of my business and personal situation.

I highly recommend Michael Slotopolsky and Vision Financial Group CPAs for any type of business, individual, or family. You will not only benefit from the experience, but you will enjoy the amazing office, staff and energy which make you feel comfortable and important every time you walk through the door. Needless to say, I don't feel stressed anymore about tax season.

Sincerely,
